CONTENTS OF VOLUME 24

Volume 24, No. 1, 1992

Editorial 1

Clinical Sciences

Case Studies

Return to training and competition after deep venous calf thrombosis
William O. Roberts and Donald M. Christie, Jr. 2

Clinical Investigations

Effects of exercise training on men seropositive for the human immunodeficiency virus-1
Larry W. Rigsby, R. K. Dishman, A. W. Jackson, G. S. Maclean, and P. B. Raven 6

The cardiovascular capacities of adults with Down syndrome: a comparative study
Kenneth H. Pitetti, Mike Climstein, Kathryn D. Campbell, P. J. Barrett, and James A. Jackson 13

Experimental Investigations

Attenuation of contraction-induced skeletal muscle injury by bromelain
Jerilyn A. Walker, Frank J. Cerny, John R. Cotter, and Harold W. Burton 20

Basic Sciences/Regulatory Physiology

Sutton Symposium: $\dot{V}O_{2max}$—New Concepts on an Old Theme
Chairperson: John R. Sutton

VO_{2max}—new concepts on an old theme
John R. Sutton 26

Maximal oxygen uptake: "old" and "new" arguments for a cardiovascular limitation
Bengt Saltin and Søren Strange 30

Maximal aerobic power: neuromuscular and metabolic considerations
H. J. Green and A. E. Patla 38

O_2 transport and its interaction with metabolism; a systems view of aerobic capacity
Carl R. Honig, Richard J. Connett, and Thomas E. J. Gayeski 47

Gas exchange and peripheral diffusion limitation
Peter D. Wagner 54

Original Investigations

Effect of suspending exercise training on resting metabolic rate in women
J. L. Herring, P. A. Molé, C. N. Meredith, and J. S. Stern 59

Effect of supramaximal exercise on excess postexercise O_2 consumption
Roald Bahr, Ole Grønnerød, and Ole M. Sejersted 66

Hormonal responses to ingesting water or a carbohydrate beverage during a 2 h run
Patricia A. Deuster, Anita Singh, Andrea Hofmann, Frank M. Moses, and George C. Chrousos 72

Effect of muscle stretching on the activity of neuromuscular transmission
Toshihiko Yamashita, Seiichi Ishii, and Isao Oota 80

Applied Sciences

Psychobiology and Social Sciences

Effects of a 6-month incentive-based exercise program on adherence and work capacity
J. I. Robison, M. A. Rogers, J. J. Carlson, B. E. Mavis, T. Stachnik, B. Stoffelmayr, H. A. Sprague, C. R. McGrew, and W. D. Van Huss 85

The validity of regulating exercise intensity by ratings of perceived exertion
Christopher C. Dunbar, Robert J. Robertson, Randy Baun, Michelle F. Blandin, Kenneth Metz, Ray Burdett, and Fredric L. Goss 94

Biodynamics

Effect of handrim velocity on mechanical efficiency in wheelchair propulsion
H. E. J. Veeger, L. H. V. van der Woude, and R. H. Rozendal 100

Effect of landing stiffness on joint kinetics and energetics in the lower extremity
Paul DeVita and William A. Skelly 108

Physical Fitness and Performance

Stretch shorten cycle performance enhancement through flexibility training
Gregory J. Wilson, Bruce C. Elliott, and Graeme A. Wood 116

Metabolic and performance responses to uphill and downhill running in distance runners
Jeffrey S. Staab, James W. Agnew, and Steven F. Siconolfi 124

Limited range-of-motion lumbar extension strength training
James E. Graves, Michael L. Pollock, Scott H. Leggett, David M. Carpenter, Cecily K. Fix, and Michael N. Fulton . 128

Special Communications

Methods

Evaluation of within-day precision of serum cholesterol measured by a portable analyzer
Leonard A. Kaminsky and Mitchell H. Whaley 134

Prescribing water-based exercise from treadmill and arm ergometry in cardiac patients
Bo Fernhall, Thomas G. Manfredi, and Karen Congdon 139

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
E. C. Frederick and Peter R. Cavanagh 144

Response
Steven E. Robbins and Gerard J. Gouw 145

Book Reviews 148

Reviewers for 1991 150

Volume 24, No. 2, 1992

J. B. Wolffe Memorial Lecture

"Why exercise?"
Per-Olof Åstrand 153

Clinical Sciences

Clinical Investigations

Prediction of claudication pain from clinical measurements obtained at rest
Andrew W. Gardner, James S. Skinner, Bradford W. Cantwell, and L. Kent Smith 163

Postural responses to lateral perturbation in healthy subjects and ankle sprain patients
Denis Brunt, J. C. Andersen, B. Huntsman, L. B. Reinhert, A. C. Thorell, and J. C. Sterling 171

Clinical Epidemiology

Symptom-limited graded treadmill exercise testing in young adults in the CARDIA study
Stephen Sidney, William L. Haskell, Richard Crow, Barbara Sternfeld, Albert Oberman, Mary Anne Armstrong, Gary R. Cutter, David R. Jacobs, Peter J. Savage, and Linda Van Horn 176

The injury experience of the competitive athlete with a disability: prevention implications
Michael S. Ferrara, William E. Buckley, R. Cairbre McCann, Thomas J. Limbird, John W. Powell, and Robin Robl 184

Basic Sciences/Regulatory Physiology

Brief Review

Repair of injured skeletal muscle: a molecular approach
Brenda Russell, David J. Dix, David L. Haller, and Jamil Jacobs-El 189

Original Investigations

Activation of myogenic precursor cells after muscle injury
Timo Hurme and Hannu Kalimo 197

The effect of anabolic-androgenic steroids on primary myocardial cell cultures
Russell B. Melchert, Timothy J. Herron, and Allison A. Welder 206

Comparison of the forearm and calf blood flow response to thermal stress during dynamic exercise
Takeshi Nishiyasu, Xiangrong Shi, Christopher M. Gillen, Gary W. Mack, and Ethan R. Nadel 213

The effect of psychological strategies upon cardiorespiratory and muscular activity during treadmill running
B. D. Hatfield, T. W. Spalding, A. D. Mahon, B. A. Slater, E. B. Brody, and P. Vaccaro 218

Applied Sciences

Biodynamics

The effectiveness of grip bands in reducing racquet vibration transfer and slipping
Herbert Hatze 226

Dynamics of wheelchair basketball
Kenneth D. Coutts 231

Segmental reflex organization in endurance-trained athletes and untrained subjects
David M. Koceja and Gary Kamen 235

Psychobiology and Social Sciences

NCAA institutionally based drug testing: do our athletes know the rules of *this* game?
Richard R. Albrecht, William A. Anderson, Christopher A. McGrew, Douglas B. McKeag, and David O. Hough . . . 242

Special Communications

Methods

Assessment of body composition in heart transplant patients
Steven J. Keteyian, Charles R. C. Marks, Frank J. Fedel, Johnathan K. Ehrman, Brian R. Goslin, Ann M. Connolly, J. David Fachnie, T. Barry Levine, and Michael J. O'Neil . . . 247

Validity of Futrex-5000 for body composition determination
Karen P. McLean and James S. Skinner . . . 253

Comparison of six methods for force normalization in muscles from malnourished rats
Mary L. Nishio, Annie G. Madapallimattam, and Khursheed N. Jeejeebhoy . . . 259

Reliability and variability of heart rate monitoring in 3-, 4-, and 5-yr-old children
Robert H. Durant, Tom Baranowski, Harry Davis, William O. Thompson, Jacqueline Puhl, Kathryn A. Greaves, and Thomas Rhodes . . . 265

Technical Note

The accuracy of the ACSM cycle ergometry equation
Patrick B. Lang, Richard W. Latin, Kris E. Berg, and Morris B. Mellion . . . 272

Book Reviews . . . 277

Volume 24, No. 3, 1992

Clinical Sciences

Clinical Commentary

Congenital cardiovascular disease—the major cause of athletic death in high school and college
Robert C. Cantu . . . 279

Clinical Review

Exercise training in patients with chronic obstructive pulmonary disease
Rick Carter, J. Richard Coast, and Steven Idell . . . 281

Clinical Investigations

Value of isokinetic angle-specific torque measurements in normal and injured knees
Pekka Kannus and Kazunori Yasuda . . . 292

Long-term relationship between acute rhabdomyolysis and abnormal high-energy phosphate metabolism potentiated by ischemic exercise
P. Legros, P. Jehenson, J. P. Gascard, and G. Kozak-Reiss . . . 298

Basic Sciences/Regulatory Physiology

Brief Review

Control of skin blood flow during exercise
W. Larry Kenney and John M. Johnson . . . 303

Original Investigations

Sweat gland response to exercise in the heat among pre-, mid-, and late-pubertal boys
Bareket Falk, Oded Bar-Or, Randy Calvert, and J. Duncan MacDougall . . . 313

The effect of food matrix on carbohydrate utilization during moderate exercise
Judith K. Jarvis, Desiree Pearsall, Craig M. Oliner, and Dale E. Schoeller . . . 320

Extrinsic plasminogen activator response to exercise after a single dose of propranolol
Mahmoud S. El-Sayed . . . 327

The effects of testosterone on lipids and eicosanoids in cynomolgus monkeys
Andrew S. Weyrich, W. Jack Rejeski, Peter H. Brubaker, and John S. Parks . . . 333

Acute intensive interval training and T-lymphocyte function
Rod W. Fry, Alan R. Morton, and David Keast . . . 339

Applied Sciences

Psychobiology and Social Sciences

Abatement of exertional perceptions following dynamic exercise: physiological mediators
Robert J. Robertson, Patricia A. Nixon, Carl J. Caspersen, Kenneth F. Metz, R. Anne Abbott, and Fredric L. Goss 346

A critical analysis of work-site fitness programs and their postulated economic benefits
Roy J. Shephard . . . 354

Biodynamics

Energetics of backstroke swimming in males and females
Panagiota P. Klentrou and Richard R. Montpetit 371

Effect of internal work on the calculation of optimal pedaling rates
Jeffrey J. Widrick, Patty S. Freedson, and Joseph Hamill 376

Physical Fitness and Performance

Ingestion of an antihistamine does not affect exercise performance
Leslie C. Montgomery and Patricia A. Deuster 383

The effects of oral smokeless tobacco on the cardiorespiratory response to exercise
Bruce L. Van Duser and Peter B. Raven 389

Special Communiations

Amount of exercise per day and weeks of training: effects on body weight and daily energy expenditure
E. Joan Wilterdink, Douglas L. Ballor, and Richard E. Keesey 396

Corrigendum 401

Volume 24, No. 4, 1992

Clinical Sciences

Commentary

Hyponatremia during endurance running: a physiological and clinical interpretation
Timothy Noakes 403

Case Study

Obesity in a high school football candidate: a case presentation
Ted A. Kaplan 406

Clinical Investigations

Exercise responses prior to pregnancy and in the postpartum state
Jeannette E. South-Paul, Krishnan R. Rajagopal, and Michael F. Tenholder 410

Strength training accelerates gastrointestinal transit in middle-aged and older men
K. H. Koffler, A. Menkes, R. A. Redmond, W. E. Whitehead, R. E. Pratley, and B. F. Hurley 415

Exertional heatstroke and muscle metabolism: an *in vivo* ^{31}P-MRS study
Jean-François Payen, Lionel Bourdon, Henri Reutenauer, Bruno Melin, Jean-François Le Bas, Paul Stieglitz, and Michel Cure 420

Basic Sciences/Regulatory Physiology

Effect of training on insulin secretion from single pancreatic beta cells
P. A. Farrell, A. L. Caston, D. Rodd, and J. Engdahl 426

Effects of oral contraceptives on hormonal and metabolic responses during exercise
Debra A. Bemben, Richard A. Boileau, Janice M. Bahr, Ralph A. Nelson, and James E. Misner 434

Plasma zinc uptake from a supplement during submaximal running
Anita Singh, Frank M. Moses, Bonnie L. Smoak, and Patricia A. Deuster 442

Erythrocyte, plasma, and blood volume of healthy young men
Michael N. Sawka, Andrew J. Young, Kent B. Pandolf, Richard C. Dennis, and C. Robert Valeri 447

Applied Sciences

Biodynamics and Physical Fitness and Performance

Economy of Running: A Multidisciplinary Perspective Symposium
Chairperson: Don W. Morgan

Introduction: economy of running: a multidisciplinary perspective
Don W. Morgan 454

Physiological aspects of running economy
Don W. Morgan and Mitchell Craib 456

Running economy: changes with age during childhood and adolescence
Gary S. Krahenbuhl and Tracy J. Williams 462

Biomechanical considerations for economical walking and running
Philip E. Martin and Don W. Morgan 467

Psychological state and running economy
Debra J. Crews 475

Running economy of elite male and elite female runners
Jack Daniels and Nancy Daniels 483

Special Communications

Case Study

Marathon swim training in a 74-yr-old man: personal experiences
Adrian C. Kanaar and Mitchell W. Hecht 490

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Gregory L. Landry 495

Response
Ted A. Kaplan 497

Book Reviews 499

Erratum 501

Volume 24, No. 5, 1992

Editorial 503

Clinical Sciences

Clinical Case Study

Chest pain and shortness of breath in a collegiate basketball player: case report and literature review
Henry A. Stiene 504

Clinically Relevant Symposium

Symposium on Muscle Soreness: Exercise-Induced Muscle Damage—Animal and Human Models
Chairperson: Priscilla M. Clarkson

Exercise-induced muscle damage—animal and human models
Priscilla M. Clarkson 510

Muscle function after exercise-induced muscle damage and rapid adaptation
Priscilla M. Clarkson, Kazunori Nosaka, and Barry Braun 512

Structural and mechanical basis of exercise-induced muscle injury
Jan Fridén and Richard L. Lieber 521

Alterations in the sarcoplasmic reticulum: a possible link to exercise-induced muscle damage
Sherell K. Byrd 531

The use of nuclear magnetic resonance to evaluate muscle injury
Kevin McCully, Frank G. Shellock, William J. Bank, and Joel D. Posner 537

Basic Sciences/Regulatory Physiology

Original Investigations

A comparative evaluation of the individual anaerobic threshold and the critical power
Tom M. McLellan and Kenneth S. Y. Cheung 543

Endurance training-induced increases in expiratory muscle oxidative capacity
Stephen Grinton, Scott K. Powers, John Lawler, David Criswell, Stephen Dodd, and William Edwards 551

Respiratory, muscular, and overall perceptions of effort: the influence of hypoxia and muscle mass
Roy J. Shephard, H. Vandewalle, V. Gil, E. Bouhlel, and H. Monod 556

Differential effects of dietary carbohydrate on RPE at the lactate and ventilatory thresholds
William K. Prusaczyk, Kirk J. Cureton, Ralph E. Graham, and Chester A. Ray 568

Applied Sciences

Epidemiology

Physical activity and growth, maturation and performance: a longitudinal study
Gaston P. Beunen, Robert M. Malina, Roland Renson, Jan Simons, Michel Ostyn, and Johan Lefevre 576

Biodynamics

Factors influencing rearfoot kinematics during a rapid lateral braking movement
Kathy Jean Simpson, Patricia A. Shewokis, Saud Alduwaisan, and Kimberly T. Reeves 586

Biomechanical and orthopedic concepts in sport shoe construction
B. M. Nigg and B. Segesser 595

The effectiveness of weight-belts during multiple repetitions of the squat exercise
Jeffrey E. Lander, Joey R. Hundley, and R. Leslie Simonton 603

Special Communications

Methods

Effects of blood sampling technique and exercise on plasma androgens in female rats
Karen A. Carlberg and Barbara L. Alvin 610

The validity of visual estimations of percent body fat in lean males
Joan M. Eckerson, Terry J. Housh, and Glen O. Johnson 615

Letters to the Editor-in-Chief

Editor's Note
Peter B. Raven 619

Letter to the Editor-in-Chief
Linn Goldberg and Diane L. Elliot 619

Response
Ben Hurley, Peter Kokkinos, and Andrew Goldberg 620

Letter to the Editor-in-Chief
Michael H. Stone 621

Response
Peter Kokkinos and Ben Hurley 622

Volume 24, No. 6, 1992

Editorial 625

Response to Clinical Commentary 626

Clinical Sciences

Clinical Investigations

Subject characteristics and low back pain in young athletes and nonathletes
Urho M. Kujala, Jouko J. Salminen, Simo Taimela, Airi Oksanen, and Laura Jaakkola 627

The blood pressure response to exercise in anabolic steroid users
Deborah Riebe, Bo Fernhall, and Paul D. Thompson 633

Effects of acute inhalation of the bronchodilator, albuterol, on power output
Joseph F. Signorile, Ted A. Kaplan, Brooks Applegate, and Arlette C. Perry 638

Basic Sciences/Regulatory Physiology

Symposium: Current Concepts Concerning Thirst, Dehydration, and Fluid Replacement
Chairperson: Michael N. Sawka

Current concepts concerning thirst, dehydration, and fluid replacement: overview
Michael N. Sawka and John E. Greenleaf 643

Problem: thirst, drinking behavior, and involuntary dehydration
John E. Greenleaf 645

Physiological consequences of hypohydration: exercise performance and thermoregulation
Michael N. Sawka 657

Carbohydrate and fluid ingestion during exercise: are there trade-offs?
Edward F. Coyle and Scott J. Montain 671

Guidelines for optimal replacement beverages for different athletic events
Carl V. Gisolfi and Stanley M. Duchman 679

Original Investigations

Thermoregulatory responses of pre-, mid-, and late-pubertal boys to exercise in dry heat
Bareket Falk, Oded Bar-Or, and J. Duncan MacDougall 688

Applied Sciences

Biodynamics

The movement of the heel within a running shoe
Alex Stacoff, Christoph Reinschmidt, and Edgar Stüssi 695

Voluntary and electromyostimulation forces in trained and untrained men
Tibor Hortobágyi, Nancy J. Lambert, Catherine Tracy, and Marc Shinebarger 702

Psychobiology and Social Sciences

No effects of glycogen depleting exercise and altered diet composition on mood states
William K. Prusaczyk, Rod K. Dishman, and Kirk J. Cureton 708

Psychobiologic responses to exercise at different times of day
Patrick J. O'Connor and Jona C. Davis 714

Physical Fitness and Performance

Effect of oxygen breathing following submaximal and maximal exercise on recovery and performance
Mark K. Robbins, Kevin Gleeson, and Clifford W. Zwillich 720

Chronic multivitamin-mineral supplementation does not enhance physical performance
Anita Singh, Frank M. Moses, and Patricia A. Deuster 726

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Barry Braun 733

Response
Jerilyn Walker, Frank Cerny, and Harold Burton 733

Book Reviews 735

Corrigendum 738

Volume 24, No. 6 Supplement, 1992

Foreword: Physical activity and cardiovascular health: special emphasis on women and youth
Claude Lenfant S191

Overview of the National Heart, Lung, and Blood Institute Workshop on physical activity and cardiovascular health
George Sopko, Eva Obarzanek, and Elaine Stone S192

The public health burden of a sedentary lifestyle
J. Michael McGinnis S196

Cardiovascular benefits and assessment of physical activity and physical fitness in adults
William L. Haskell, Arthur S. Leon, Carl J. Caspersen, Victor F. Froehlicher, James M. Hagberg, William Harlan, John O. Holloszy, Judith G. Regensteiner, Paul D. Thompson, Richard A. Washburn, and Peter W. F. Wilson S201

Determinants of physical activity and interventions in adults
Abby C. King, Steven N. Blair, Diane E. Bild, Rod K. Dishman, Patricia M. Dubbert, Bess H. Marcus, Neil B. Oldridge, Ralph S. Paffenbarger, Jr., Kenneth E. Powell, and Kim K. Yeager S221

Assessment, prevalence, and cardiovascular benefits of physical activity and fitness in youth
Tom Baranowski, Claude Bouchard, Oded Bar-Or, Timothy Bricker, Gregory Heath, Sue Y. S. Kimm, Robert Malina, Eva Obarzanek, Russell Pate, William B. Strong, Benedict Truman, and Reginald Washington S237

Determinants of physical activity and interventions in youth
James F. Sallis, Bruce G. Simons-Morton, Elaine J. Stone, Charles B. Corbin, Leonard H. Epstein, Nell Faucette, Ronald J. Iannotti, Joel D. Killen, Robert C. Klesges, Clayre K. Petray, Thomas W. Rowland, and Wendell C. Taylor S248

Acute repsonse and chronic adaptation to exercise in women
Jere H. Mitchell, Charlotte Tate, Peter Raven, Fred Cobb, William Kraus, Randall Moreadith, Mary O'Toole, Bengt Saltin, and Nanette Wenger S258

Exercise and atherosclerotic heart disease in women
Pamela S. Douglas, Thomas B. Clarkson, Nancy C. Flowers, Kathy A. Hajjar, Edward Horton, Francis J. Klocke, John La Rosa, and Carol Shively S266

Working group on noncoronary cardiovascular disease and exercise in women
Co-chairs: Allen W. Cowley, Jr. and Victor Dzau; Members: Peter Buttrick, John Cooke, Richard B. Devereux, Cindy L. Grines, George C. Haidet, and Marc D. Thames S277

The reproductive system and exercise in women
Anne B. Loucks, Judith Vaitukaitis, Judy L. Cameron, Alan D. Rogol, Gary Skrinar, Michelle P. Warren, Juliette Kendrick, and Marian C. Limacher S288

Exercise in pregnancy
James F. Clapp III, Roxanne Rokey, Judith I. Treadway, Marshall W. Carpenter, Raul M. Artal, and Carole Warrnes S294

Osteoporosis and exercise in women
Robert Marcus, Barbara Drinkwater, Gail Dalsky, Janet Dufek, Diane Raab, Charles Slemenda, and Christine Snow-Harter S301

Volume 24, No. 7, 1992

Clinical Sciences

Clinical Investigations

The effects of closed-head injury on postural sway
Christopher D. Ingersoll and Charles W. Armstrong 739

An analysis of supraspinatus EMG activity and shoulder isometric force development
Teddy W. Worrell, Barbara J. Corey, Stephanie L. York, and Joseph Santiestaban 744

Isometric exercise training lowers resting blood pressure
Ronald L. Wiley, Charles L. Dunn, Ronald H. Cox, Nancy A. Hueppchen, and Mary S. Scott 749

Clinical Epidemiology

Growth and menarcheal status of elite female gymnasts
Albrecht L. Claessens, Robert M. Malina, Johan Lefevre, Gaston Beunen, Valere Stijnen, Hermine Maes, and Fons M. Veer 755

Basic Sciences/Regulatory Physiology

Original Investigations

Estradiol and progesterone during exercise in healthy untrained women
Carlo Federico Montagnani, Bruno Arena, and Nicola Maffulli 764

The effect of normoxic or hypobaric hypoxic endurance training on the hypoxic ventilatory response
Benjamin D. Levine, Daniel B. Friedman, Kim Engfred, Birgitte Hanel, Michael Kjaer, Phillip S. Clifford, and Niels H. Secher 769

Sweat electrolyte loss during exercise in the heat: effects of gender and maturation
Flavia Meyer, Oded Bar-Or, Duncan MacDougall, and George J. F. Heigenhauser 776

Cycling efficiency is related to the percentage of Type I muscle fibers
Edward F. Coyle, Labros S. Sidossis, Jeffrey F. Horowitz, and John D. Beltz 782

Carotid-cardiac baroreflex response and LBNP tolerance following resistance exercise
Dana L. Tatro, Gary A. Dudley, and Victor Convertino 789

Applied Sciences
Biodynamics

Effects of a functional knee brace on the biomechanics of running
Paul Devita, Pamela Blankenship Hunter, and William A. Skelly 797

Timing of lower extremity joint actions during treadmill running
Joseph Hamill, Barry T. Bates, and Kenneth G. Holt 807

Physical Fitness and Performance

Effect of macronutrient composition of an energy-restrictive diet on maximal physical performance
Christopher B. Scott, Ruth Carpenter, Angela Taylor, and Neil F. Gordon 814

Effect of iron supplementation on endurance capacity in iron-depleted female runners
Lisa A. Klingshirn, Russell R. Pate, Sharon P. Bourque, J. Mark Davis, and Roger G. Sargent 819

Special Communications
Methods

A technique for locating the center of mass and principal axes of the lower limb
Mary C. Verstraete 825

Body composition of healthy sedentary and trained, young and older men and women
Wendy M. Kohrt, Mary T. Malley, Gail P. Dalsky, and John O. Holloszy 832

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Diane L. Elliot, Linn Goldberg, and Gregg O. Coodley 838

Response
Larry W. Rigsby, Rod K. Dishman, Allen W. Jackson, and Peter B. Raven 838

Book Reviews 841

Clinical Sciences

Clinical Symposium

Symposium: Exercise and Allergy: Physical Allergy, Exercise-Induced Anaphylaxis, and Exercise-Induced Bronchospasm Chairpersons: William W. Briner, Jr. and Albert L. Sheffer

Introduction: exercise and allergy
William W. Briner, Jr. 843

Physical allergies
Richard F. Horan, Albert L. Sheffer, and William W. Briner, Jr. 845

Exercise-induced anaphylaxis
William H. Briner, Jr. and Albert L. Sheffer 849

Exercise-induced bronchospasm: epidemiology, pathophysiology, and therapy
Frank S. Virant 851

Exercise-induced bronchospasm in the young athlete: guidelines for routine screening and initial management
James M. Kyle, Robert B. Walker, Sharon L. Hanshaw, Joseph R. Leaman, and Julie K. Frobase 856

Clinical Investigations

Breathlessness predicts perceived exertion in young women with mild asthma
Judith M. Yorio, Rod K. Dishman, William R. Forbus, Kirk J. Cureton, and Ralph E. Graham 860

Basic Sciences/Regulatory Physiology

Original Investigations

Maternal respiration and blood gases during aerobic exercise performed at moderate altitude
James M. Pivarnik, Wesley Lee, Thomas Spillman, Steven L. Clark, David B. Cotton, and Joanna F. Miller 868

Substrate oxidation and GH responses to exercise are independent of menstrual phase and status
J. A. Kanaley, R. A. Boileau, J. A. Bahr, J. E. Misner, and R. A. Nelson 873

A weight-lifting exercise model for inducing hypertrophy in the hindlimb muscles of rats
Tetsuro Tamaki, Shuichi Uchiyama, and Shoichi Nakano 881

Andrenergic responsiveness and intrinsic sinoatrial automaticity of exercise-trained rats
Mary E. Schaefer, J. Alan Allert, H. Richard Adams, and M. Harold Laughlin 887

Applied Sciences

Psychobiology and Social Sciences

The effects of smokeless tobacco on performance and psychophysiological response
Daniel M. Landers, Debra J. Crews, Stephen H. Boutcher, James S. Skinner, and Steven Gustafsen 895

Failure to generalize determinants of self-reported physical activity to a motion sensor
Rod K. Dishman, Charles R. Darracott, and Leslie T. Lambert 904

Biodynamics

Effect of manipulation of plasma lactate on integrated EMG during cycling
Kevin L. Seburn, David J. Sanderson, Angelo N. Belcastro, and Donald C. McKenzie 911

Propulsive and gliding phases in four cross-country skiing techniques
Bernard Bilodeau, Marcel R. Boulay, and Benoit Roy 917

Physical Fitness and Performance

Strength after bouts of eccentric or concentric actions
Catherine L. Golden and Gary A. Dudley 926

Carbohydrate-electrolyte replacement improves distance running performance in the heat
Mindy L. Millard-Stafford, Phillip B. Sparling, Linda B. Rosskopf, and Linda J. DiCarlo 934

Special Communications

Methods

Validity of a cardiorespiratory fitness test for men with mental retardation
Pauli Rintala, John M. Dunn, Jeffrey A. McCubbin, and Christine Quinn 941

A comparison between two forms or aerobic dance and treadmill running
Michael J. Berry, Camala C. Cline, Carolynn B. Berry, and Martha Davis 946

Book Reviews 952

Volume 24, No. 9, 1992

Clinical Sciences

Clinical Case Studies

Stress fractures in young athletic women: case reports of unsuspected cortisol-induced osteoporosis
Angelo A. Licata 955

Thigh compartment syndrome in a football athlete: a case report and review of the literature
Angelo J. Colosimo and Mary Lloyd Ireland 958

Clinical Investigation

Etiology of low back pain in elite boardsailors
Simon Locke and Graham D. Allen 964

Basic Sciences/Regulatory Physiology

Exercise capacity and breathing mechanics in patients with airflow limitation
T. G. Babb and J. R. Rodarte 967

Substrate utilization during treadmill running in prepubertal girls and women
Lucia R. Martinez and Emily M. Haymes 975

The effect of an anti-G suit on cardiovascular responses to exercise in persons with paraplegia
Maria T. E. Hopman, Berend Oeseburg, and Rob A. Binkhorst 984

Aerobic fitness: I. Response of volume regulating hormones to head-down tilt
Xiangrong Shi, William G. Squires, Jon W. Williamson, Craig G. Crandall, Jia-Jen Chen, Larry P. Krock, and Peter B. Raven 991

Aerobic fitness: II. Orthostasis and $\dot{V}O_{2peak}$ following head-down tilt
Jon W. Williamson, Xiangrong Shi, Jia-Jen Chen, Craig G. Crandall, William G. Squires, Larry P. Krock, and Peter B. Raven 999

Applied Sciences

Recovery from endurance exercise
W. Michael Sherman S336

Training for endurance sport
Russell R. Pate and J. David Branch S340

Ergogenic and ergolytic substances
Melvin H. Williams S344

Food selection for endurance sports
Linda Houtkooper S349

Prevention and treatment of injuries to runners
Mary L. O'Toole S360

Volume 24, No. 10, 1992

Clinical Sciences

Clinical Investigations

Exercise-induced proteinuria is attenuated by indomethacin
Karen D. Mittleman and Edward J. Zambraski 1069

Further evidence against a direct automatic neuromotor link between the ACL and hamstrings
M. D. Grabiner, T. J. Koh, and G. F. Miller 1075

Clinical Epidemiology

Musculoskeletal strength and serum lipid levels in men and women
Harold W. Kohl III, Neil F. Gordon, Christopher B. Scott, Hylkia Vaandrager, and Steven N. Blair 1080

Basic Sciences/Regulatory Physiology

Original Investigations

Effect of pedal rate on cardiorespiratory responses during continuous exercise
R. Donald Hagan, Stephen E. Weis, and Peter B. Raven 1088

Effect of varying levels of hypohydration on responses during submaximal cycling
Donald R. Dengel, Peter G. Weyand, Donna M. Black, and Kirk J. Cureton 1096

Acute exercise attenuates phenylephrine-induced contraction of rabbit isolated aortic rings
Mary Gaukler Howard, Stephen E. DiCarlo, and John N. Stallone 1102

Opioid receptor modulation of postexercise hypotension
James B. Boone, Jr., Marc Levine, Michael G. Flynn, Frank X. Pizza, Eugene R. Kubitz, and Frederick F. Andres 1108

Applied Sciences

Biodynamics

Physiological response to cycling with both circular and noncircular chainrings
M. L. Hull, Martha Williams, Keith Williams, and Steve Kautz 1114

Effect of cadence on the economy of uphill cycling
David P. Swain and Jonathan P. Wilcox 1123

Physiological, anthropometric, and training correlates of running economy
Russell R. Pate, Caroline A. Macera, Stephen P. Bailey, William P. Bartoli, and Kenneth E. Powell 1128

Transfer of tennis racket vibrations onto the human forearm
Ewald M. Hennig, Dieter Rosenbaum, and Thomas L. Milani 1134

Effects of taper on swim power, stroke distance, and performance
R. Anderson Johns, Joseph A. Houmard, Richard W. Kobe, Tibor Hortobágyi, Nicholas J. Bruno, Jennifer M. Wells, and Marc H. Shinebarger 1141

Physical Fitness and Performance

Effect of age and menopausal status on cardiorespiratory fitness in masters women runners
Christine L. Wells, Margaret A. Boorman, and Donna M. Riggs 1147

Running on land and in water: comparative exercise physiology
Jan Svedenhag and Jan Seger 1155

The effect of salbutamol on performance in elite nonasthmatic athletes
Willem H. Meeuwisse, Donald C. McKenzie, Susan R. Hopkins, and Jeremy D. Road 1161

Special Communications

Methods

Variability of some objective measures of physical activity
Randall J. Gretebeck and Henry J. Montoye 1167

Predictors of over- and underachievement of age-predicted maximal heart rate
Mitchell H. Whaley, Leonard A. Kaminsky, Gregory B. Dwyer, Leroy H. Getchell, and James A. Norton 1173

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Bruce Arroll and Robert Beaglehole 1180

Response
James [Hagberg and William L. Haskell 1180

Book Reviews 1182

Volume 24, No. 11, 1992

Clinical Sciences

Clinical Case Study

Case presentation: painless arm swelling in a high school football player
Robert S. Skerker and Frederick C. Flandry 1185

Clinical Investigation

Bone density in postmenopausal women: high impact vs low impact exercise
Katie A. Grove and Ben R. Londeree 1190

Clinical Epidemiology

Cancer and the protective effect of physical activity: the epidemiological evidence
Barbara Sternfeld 1195

Basic Sciences/Regulatory Physiology

Original Investigations

Effects of exercise training on plasminogen activator inhibitor activity
Eco J. C. de Geus, Cornelis Kluft, Anton C. W. de Bart, and Lorenz J. P. van Doornen 1210

Relative changes in maximal force, EMG, and muscle cross-sectional area after isometric training
S. Garfinkel and E. Cafarelli 1220

Blood pressure responses to LBNP in nontrained and trained hypertensive rats
Toby G. Bedford and Charles M. Tipton 1228

Reduction in LBNP tolerance following prolonged endurance exercise training
Glen H. J. Stevens, Brian H. Foresman, Xiangrong Shi, Stephen A. Stern, and Peter B. Raven 1235

Cardiac response to acute coronary artery occlusion in exercise-trained dogs
Jeffrey M. Dodd-o and Patricia A. Gwirtz 1245

Electrical stimulation-induced changes in skeletal muscle enzymes of men and women
Janik M. Gauthier, Rémy Thériault, Germain Thériault, Yves Gélinas, and Jean-Aimé Simoneau 1252

Applied Sciences

Biodynamics

EMG and mechanical changes during sprint starts at different front block obliquities
Nathalie Guissard, Jacques Duchateau, and Karl Hainaut 1257

Effects of arch height of the foot on ground reaction forces in running
Werner Nachbauer and Benno M. Nigg 1264

Physical Fitness and Performance

Metabolic and anthropometric changes with weight cycling in wrestlers
Linda J. McCargar and Susan M. Crawford 1270

Physiological aspects of swimming performance for persons with disabilities
Jean-Claude Chatard, Jean-Marc Lavoie, Helene Ottoz, Pierre Randaxhe, Georges Cazorla, and Jean-Rene Lacour 1276

Endurance training enhances critical power
David G. Jenkins and Brian M. Quigley 1283

Serum sex hormones and endurance performance after a lacto-ovo vegetarian and a mixed diet
Anne Raben, Bente Kiens, Erik A. Richter, Lone B. Rasmussen, Birgit Svenstrup, Snezana Micic, and Poul Bennett 1290

Special Communications

Methods

Validity of bioelectrical impedance equations for estimating fat-free weight in lean males
Joan M. Eckerson, Terry J. Housh, and Glen O. Johnson 1298

Accuracy of RPE from graded exercise to establish exercise training intensity
Stephen C. Glass, Ronald G. Knowlton, and M. Daniel Becque 1303

Book Reviews 1308

Volume 24, No. 12, 1992

Clinical Sciences

Clinical Case Study

Delayed treatment of a malreduced distal femoral epiphyseal plate fracture
Michael C. Meyers, R. David Calvo, James C. Sterling, and David W. Edelstein 1311

Case report: bilateral ankle pain in an aerobic dancer
Gary A. Green and Bertram A. Maltz 1316

Hypertrophic cardiomyopathy in a college athlete
Stephen M. Simons and James Moriarity 1321

Clinical Investigation

Effect of different modalities of exercise and recovery on exercise performance in subjects with sickle cell trait
D. Gozal, P. Thiriet, E. Mbala, D. Wouassi, H. Gelas, A. Geyssant, and J. R. Lacour 1325

Basic Sciences/Regulatory Physiology

Original Investigations

Anaerobic exercise causes transient changes in leukocyte subsets and IL-2R expression
A. B. Gray, Y. C. Smart, R. D. Telford, M. J. Weidemann, and T. K. Roberts 1332

Effects of brief, heavy exertion on circulating lymphocyte subpopulations and proliferative response
David C. Nieman, Dru A. Henson, Robert Johnson, Lauralynn Lebeck, J. Mark Davis, and Sandra L. Nehlsen-Cannarella 1339

Growth hormone, IGF-I, and testosterone responses to resistive exercise
R. R. Kraemer, J. L. Kilgore, G. R. Kraemer, and V. Daniel Castracane 1346

Plasma amino acid concentrations in the overtraining syndrome: possible effects on the immune system
Mark Parry-Billings, Richard Budgett, Yiannis Koutedakis, Eva Blomstrand, Steven Brooks, Clyde Williams, Philip C. Calder, Sian Pilling, Robert Baigrie, and Eric A. Newsholme 1353

Pulmonary function changes following exercise
Joseph A. O'Kroy, Robin A. Loy, and J. Richard Coast 1359

Dynamic and steady-state ventilatory and gas exchange responses to arm exercise
Richard Casaburi, Thomas J. Barstow, Terry Robinson, and Karlman Wasserman 1365

Applied Sciences

Biodynamics

Viscoelastic stress relaxation in human skeletal muscle
Malachy P. McHugh, S. Peter Magnusson, Gilbert W. Gleim, and James A. Nicholas 1375

Effect of pelvic position and stretching method on hamstring muscle flexibility
Michael K. Sullivan, Joseph J. Dejulia, and Teddy W. Worrell 1383

Heel movement within a court shoe
Christoph Reinscmidt, Alex Stacoff, and Edgar Stüssi 1390

Estimates of mechanical work and energy transfers: demonstration of a rigid body power model of the recovery leg in gait
Graham E. Caldwell and Larry W. Forrester 1396

Book Reviews 1413
